COUNTRY: Myanmar

<b>National Initiatives to Encourage Clean Energy</b>	<b>Views on Possible Common Legislation</b>
<p>It is important to face world challenges and energy security, climate change, environmental degradation and financial crisis. In the same way initiatives for clean energy should be made with cooperation of states.</p> <p>The same applies in ASEAN Region. Myanmar has the will to cooperate with other countries in a matter clean energy.</p> <p>Testing of plants in a small scale are now be made for the development of bio fuel.</p> <p>She hosted the 27<sup>th</sup> ASEAN Ministers' on Energy Meeting in Mandalay on July 29<sup>th</sup> 2009.</p>	<p>Possible Legislation can only be made after proper tests and concrete programme for clean energy.</p> <p>These factors are now under discussion with the hope that there will emerge one day a common legislation.</p>
